Bright Star Lighting reserves the right to change, discontinue or replace any items that appear in this catalogue.

Specifications, sizes and colours printed in this catalogue, could vary from the actual product and are subject to change.

We regret any errors or omissions that may occur.

Bright Star Lighting started in1995 in a 300 square meter warehouse and showroom in Cape Town. We now have much larger premises in Montague Gardens, Cape Town as well as warehousing in Linbro Business Park, Johannesburg.

Bright Star Lighting is a family run lighting business, owned and run by the Miller family. Together with our loyal staff, we have built and created a lighting brand which has become a household name in the lighting industry.

We specialise in a large variety of quality light fittings which we supply for the domestic market and are continuously keeping up with the ever changing lighting fashion, so as to keep our range fresh and exciting. Over the years the range has developed from domestic lighting, to now include a full range of electrical light bulbs, plugs and switches, as well as emergency rechargeable lighting products.

Bright Star Lighting prides itself on supplying a high level of service, a good quality product and stock availability.

We have sales teams throughout South Africa, namely Port Elizabeth, Free state, Northern Cape, Durban, East London and Eastern Cape and we also export into Africa, throughout Namibia, Swaziland, Botswana and Mozambique.

We thank you for your ongoing support, and are proud that you have made us one of the largest wholesale lighting companies in South Africa.

Fixing Instructions:
The light fixture should be installed on a flat and stable surface.
Avoid installing the light near an air conditioner, heater, or high voltage system.
The solar charger board should be set in a sunny area where maximum sunlight can be collected.
The solar board requires at least 3 hours per day or 5 hours per day if behind glass.
Charge the light for 24 hours before first use. Charging time afterwards is 4-6 hours.
Use a soft wet cloth to periodically (at least once a year) clean the charger board
to avoid the reduction of power output due to accumulated dust.

Fixing Instructions:
The light fixture should be installed on a flat and stable surface.
Avoid installing the light near an air conditioner, heater, or high voltage system.
The solar charger board should be set in a sunny area where maximum sunlight can be collected.
The solar board requires at least 3 hours per day or 5 hours per day if behind glass.
Charge the light for 24 hours before first use. Charging time afterwards is 4-6 hours.
Use a soft wet cloth to periodically (at least once a year) clean the charger board
to avoid the reduction of power output due to accumulated dust.

DIMMABLE LED DRIVERS

PART600
Dimmable LED Driver 3W – 6W

To Match with LED Downlight:
DL701, DL702, DL711, DL712

Driver Type: Constant Current
Power: 3W – 6W
Input: AC110 – 265V 50/60 Hz
Output: DC9 – 22V 300 mA ± 3%

Width: 35mm
Length: 70mm
Connector Length: 100mm

PART601
Dimmable LED Driver 8W – 12W

To Match with LED Downlight:
DL703, DL713

Driver Type: Constant Current
Power: 8W – 12W
Input: AC110 – 265V 50/60 Hz
Output: DC24 – 42V 300 mA ± 3%

Width: 40mm
Length: 90mm
Connector Length: 100mm

PART602
Dimmable LED Driver 13W – 18W

To Match with LED Downlight:
DL704, DL705, DL714, DL715

To Match with LED Ceiling Fitting:
CF544 S, CF545 S, CF546 S, CF549 S

Driver Type: Constant Current
Power: 13W – 18W
Input: AC110 – 265V 50/60 Hz
Output: DC38 – 65V 300 mA ± 3%

Width: 47mm
Length: 130mm
Connector Length: 100mm

PART603
Dimmable LED Driver 19W – 24W

To Match with LED Ceiling Fitting:
CF544 L, CF545 L, CF546 L, CF549 L

Driver Type: Constant Current
Power: 19W – 24W
Input: AC110 – 265V 50/60 Hz
Output: DC57 – 80V 300 mA ± 3%

Width: 47mm
Length: 130mm
Connector Length: 100mm

PART611
Dimmable LED Driver 3W – 6W
To Match with LED Downlight:
DL701, DL702, DL711, DL712

Driver Type: Constant Current
Power: 3W – 6W
Input: AC110 – 265V 50/60 Hz
Output: DC9 – 22V 120 mA ± 3%

Width: 35mm
Length: 70mm
Connector Length: 100mm

PART612
Dimmable LED Driver 8W – 12W
To Match with LED Downlight: DL703, DL713

Driver Type: Constant Current
Power: 8W – 12W
Input: AC110 – 265V 50/60 Hz
Output: DC24 – 42V 120 mA ± 3%

Width: 40mm
Length: 90mm
Connector Length: 100mm

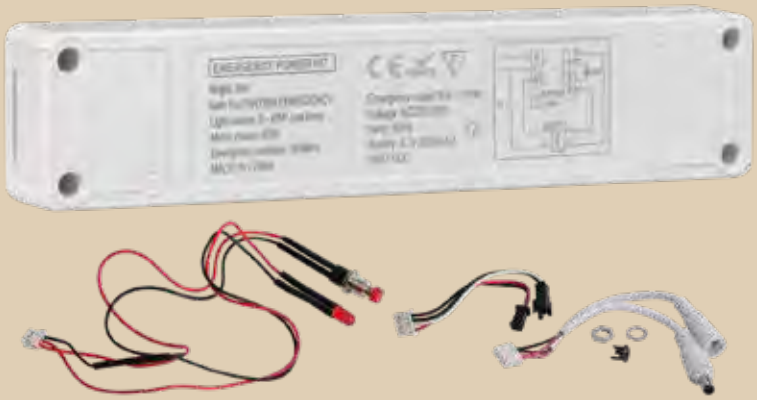
BATTERY BACKUP EMERGENCY LIGHTING



PART509 EMERGENCY

Connect to Permanent Live Wire to Charge Battery
Emergency Power Kit Replacement
Light Fitting must have an External Driver

To Convert Light Source:
5 - 40W LED Downlight, Panel and Ceiling to Emergency Light

- 30% of Power Output when the power goes down
Emergency Duration:
180 minutes @ 3Watts approximately

Includes:
Pilot light and push button tester
2 x Connectors to Driver and LED Lamps

Length: 180mm
Width: 42mm

PART510 EMERGENCY

Connect to Permanent Live Wire to Charge Battery
Emergency Power Kit Replacement

To Convert up to 20W LED Downlight
or LED Tube to Emergency Light

Same Power Output as Original Light Source
(Less than 20W)
Light Source: 5 – 20W LED Lamp
Power: 20W
Emergency Duration: 60 – 90 minutes

Length: 215mm
Width: 42mm
